

Representing the 31st District Towns of:
Bristol • Harwinton • Plainville • Plymouth

Dear friend,

The 2007 legislative session is underway and our state faces many challenges. The number of children and families with little or no access to affordable, quality healthcare continues to grow; our electricity rates continue to rise; and small business owners are feeling the crunch. These are issues that I will try to address during this legislative session. I have also proposed legislation to expand the "Do Not Call" list and protect Connecticut consumers from unfair trade practices.

Should you have any questions or need assistance please contact my office at **1-800-842-1420**.

Sincerely,

Senator Thomas A. Colapietro

Your State Senator

Increasing Access to Affordable, Quality Healthcare

We must ensure that all of Connecticut's residents have access to affordable, quality healthcare. To begin to achieve this goal, we must:

- Promote preventive care through the expansion of school-based health centers
- Expand HUSKY coverage for children and adults
- Provide incentives and support for businesses that continue comprehensive coverage for their employees and employees' dependents
- Establish incentives that promote healthy behavior

These are the first of many steps that must be taken in order to fix a system in desperate need of repair.

Providing Opportunities for Smart, Affordable Energy for Today and Tomorrow

The recent increase in electricity rates has reinforced the urgent need for the state to examine both short-term remedies and long-term solutions to help stabilize energy costs for businesses and residents.

We must encourage energy efficiency and conservation through greater investment and incentives. In addition, we need to work with our Congressional delegation on a federal energy policy that emphasizes conservation, investment in renewables and energy independence.
